About NE-IECCE 2025

IEEE NE-IECCE 2025, the first Flagship Annual International Conference of **IEEE Kolkata Section & Silchar Subsection Industry Applications Society Chapter** in association with the **Department of Electrical Engineering, NIT Silchar** aims to provide a unique platform to researchers, practitioners, industry delegates, technocrats, and policymakers from academia and industry to share and promote recent research accomplishments and innovations for the sustainable development of industry and society. To cater the future industry demands of Sustainable Energy Conversion and Transport Electrification, this conference aims to put forth the experts working in this area to share their research findings which have a significant impact on modern smart grid, sustainable electric transportation, and control.

The conference will draw a significant number of academic and industry participants over three days. We are seeking sponsors to help make **NE-IECCE 2025** a success. We offer a variety of sponsorship categories with varying benefits to show our appreciation for your support. We hope you will consider supporting this critical professional event and help make it a grand success.

Exhibits run from **04th to 06th July 2025**, at **NIT Silchar, Assam, India**.

Exhibiting at **NE-IECCE 2025** is a cost-effective way for companies of all sizes to gain exposure to the current and future world leaders in the ever-evolving industry.

Tracks

Track 1: Power Conversion Technologies for Transportation Electrification and Sustainable Energy Integration

Track 2: Modeling and Control of Energy Efficient Drives for Electric Transportation (LAND, AIR AND SEA)

Track 3: Smart and Sustainable Charging Infrastructure for E-Mobility

Track 4: Energy Conversion and Management for Sustainable Smart Energy Systems and Rural Electrification

Track 5: Computational Intelligence, Cyber Security and IoT Applications for Energy Efficiency and Conservation

Track 6: Automation, Control and Digitisation for Industry Applications
